TPS, INC

Thermal Packaging Systems, Inc.

FLEXIBLE THERMAL PACKAGING

IMPROVE YOUR CUSTOMERS PAYLOAD PROTECTION!

FEATURES

- A multi-layered metallized film composite exterior that reflects 97% of radiant heat.
- An airtight payload chamber with heavy duty FDA approved ziplock closure and a flap down sealing tape.
- Custom engineered mechanical foam insulations
- Superior seam strength creates airtight construction and crush resistant bladders.

DON'T TRUST VALUABLE TEMPERATURE SENSITIVE PAYLOADS TO PACKAGING TECHNOLOGY OF THE PAST

Improve your bottom line and add to your product line. Help your customer engineer a cost effective cold chain system to insure that valuable temperature sensitive payloads arrive in optimum condition.
